REMARKS

Specification Amendments

The specification has been amended to reflect to the amendments made in the PCT Article 34 Amendment filed in the International Stage to help ensure that they are made of record in this application.

Claim Amendments

The claims in this application were amended under PCT Article 34 by the International Preliminary Examining Authority (IPEA), wherein Claims 1-28 on published pages 19-23 were replaced with Claims 1-26 as set forth in the attached Article 34 Amendment. However, we note that there are multiple dependencies; thus, we are amending the Article 34 Amended claims further to delete the multiple dependencies and to cancel, without prejudice, Claims 25 and 26, which would be considered to be informal. A copy of the Article 34 Amendment is attached hereto.

Amendment of the subject application is respectfully requested.

Respectfully submitted,
